ROCK PLANTS and PERENNIALS

Shoreway Nursery

JOHN OUDSHOORN, Prop.

Glassboro, N. J.

Phone: 147-R1

Introduction and Condition of Sale

The prices in this Catalog cancel all previous prices.

Our plants as listed are all strong field grown, except for some which we are growing in pots owing to root conditions. These plants being a better success from pots than from the field.

We do not ship plants we would not like to receive ourselves.

Our quality plants are the lowest by comparison.

They are guaranteed to be true to name except those usually raised from seed of which we buy the best and which generally come true.

OUR TERMS ARE:

- 30 days net on accounts of approved credit.
- 2% discount in 10 days.
- 3% discount for cash with order.
- 6% interest will be charged on all accounts past due.

Orders from unknown parties must be accompanied with cash or satisfactory references.

We do not charge for packing.

3 plants are shipped at the dozen rate.

25 plants are shipped at the 100 rate.

Orders to be sent via Parcel Post must be accompanied with sufficient money for postage, otherwise a C. O. D. will be made out for the deficiency, if no postage is sent, goods will be sent via Express.

Prices for more than 100 of one variety will be gladly quoted upon request.

LOCATION

Our Nursery is located on the West side of the Delsea Drive (N. J. Route 4), between Clayton and Glassboro.

Worthy Novelty Perennials

We continuously experiment with new varieties of perennials, and have selected the following as the most outstanding. Some of these are being offered for the first time at popular prices, while others are the most worthy of recent introductions. We strongly recommend that you make a planting of these special items. You will find them very valuable additions to your present assortment of perennials.

| ACHILLEA | Doz. | 100 |
|---|------|-------|
| *tomentosa sulphurea. A beautiful new form of the well-known Achillea. tomentosa, but with pale yellow flowers which are produced in a much greater quantity during May and June. 8 in | 1.50 | 10.00 |
| ALLIUM | | |
| *Flavum. Flower-bells of deep glossy yellow, buff-tawny in reverse, are carried in loosely spraying informal clusters. Exceedingly floriferous, over a long season. Good in rock garden, or for edgings or bedding | | 8.00 |
| *Pulchellum. More or less it is an Allium flavum major that has been dipped in raspberry jam. It's a highly visible, and highly attractive tone of raspberry purple. Vivid | | 10.00 |
| ASTER | | |
| Farreri. A fantasy in purple and gold. Great shaggy flowers, three inches across, gold centers with very many, very long fringing petals of lavender purple. Each flower is carried on its own long stem, high above the foliage mats. An unusual, and particularly showy species. | | 12.00 |
| *Star of Wartburg. 12 inches. A showy spring-blooming Aster with large well-formed lilac-blue flowers with orange center. | | 10.00 |
| BETONICA | | |
| Grandifiora. Flowers of a desirable deep purple in brightly showy spikes. Visitors always stop before this when it is in bloom. | | 10.00 |
| BUDLEIA | | |
| †Charming. Develops into a Beautiful bushy plant, growing to a height of 5 to 6 ft., and almost the same in spread. Making a very striking plant in any landscape, flowering from the middle of June until frost. The flowers are a clear Lavender pink, an entirely new color, never before seen in Budleias | | 20.00 |

CHRYSANTHEMUM

doz. 100

†We have found it necessary to add these valuable plants to our collection, and after some consideration we decided to use only the best and the newest varieties, and to keep on adding only those which merit their places in our collection.

CUSHION MUMS

King Cushion. Bronze, turning yellow with age

Pink Cushion. The well-known Azalea-

Queen Cushion. White.

Red Cushion. Red flowers.

Yellow Cushion. Pure golden yellow, very brilliant. 1.50

10.00

NEW SPOON MUMS

Here is something new in Chrysanthemums. The long tubular petals flatten out at the ends so that each resembles a spoon. They are now obtainable in three different colors. Pink, White and Red. 2.00

12.00

Aglow. Double bright orange flowers.

Apricot. Apricot color, well formed, full flowers, measuring 21/2" across, growing 2½ feet tall. Good cut flower sort.

Barbara Cumming. Clear yellow in color. shading to orange-bronze toward the center.

Durbin. Large salmon pink, suffused with crimson, semi-double flowers, daisy type. Very attractive colors. Blooms measure 21/2" across.

Julia. Georgeous, large, delicate pink, full flower over 3" across. Petals are long, slightly straggly, has good lasting cut flower qualities. Height 2½ feet. We believe this variety will be popular for its beauty as well as an early sort.

Lovelight. Large pale pink duplex flowers.

Mary Youdath. A most striking color of Vivid Rose with a deep gold center, a pleasing combination. Dwarf and bushy habit. Vigorous grower.

Mrs. S. P. Rotan. Double brilliant golden yellow, shading to deep orange.

Pearl White. Very early white, flowers are small full, irregular, about 1" across, 12" high, bushy.

Pink Bouquet. Words cannot describe exquisite and outstanding introduction. The flowers are a delicate pink, slightly edged with cream. The petals are large and wide, firm

CHRYSANTHEMUMS (continued)

doz. 100

and well formed. Single type about 2" across, slightly cup-shaped. The growing habit is such that when it is in bloom, it is a well arranged, perfect Pink Bouquet of solid flowers. A real tree forming habit, grows 20" tall, vigorous, sturdy strong stems. Matures September 20. We firmly believe this will prove very valuable and popular, also making an excellent pot plant as well as cut flowers.

Pygmy Gold. A distinct dwarf Korean pompon type, producing quantities of miniature blossoms slightly over 1" across. The color is a clear yellow, remarkable for its brilliance and intensity. Commencing to flower in early September, it is easily the most colorful early chrysanthemum yet introduced. Unusual also, because it retains its effectiveness right up until the season ends. Grouping in the rock garden or yard border or used for edging, it will prove the delight of the Autmun.

Rapture. Double deep orange flowers with a lively suffusion of bright carmine.

Sally. Beautiful pink, full flowers, suffused with rose with a slight touch of cream at the center. A very pleasing combination. Bushy and vigorous grower. Fine for cut flowers.

Sequoia. Double blooms of a mellow amber.

The Chief. Semi-double, bright scarlet and gold.

Vesta. A plant of medium height and great vigor, literally covered with flowers over 2½" in diameter of a deep golden orange shade, almost a duplex.

Youdath's Pride. A distinct variety and one of the most outstanding introductions. An early orange bronze, the earliest bronze yet on the market. The flowers are perfect in form, color, shape and habit. Measuring 1¾" in diameter. The petals are compact and of straight and firm habit, yet it appears to be so tenderly graceful. With us it begins to bloom September 12 - 15. The height is 15", very bushy, fine foliage and shape. Suitable for edging, rock garden, and a gem for pot plant.

All of the above Chrysanthemums are 1.50 10.00

COREOPSIS

*Rosea. Little daisies of silvery rose in utmost profusion. Makes turfs of low, close-packed green ferniness. 1.50 10.00

COREOPSIS (continued)

Doz. 100

†Verticillata. Fern Coreopsis. Delightful fern-shredded foliage of bright green, but newer growth is roseate buff in delicately blended tonings. Blossoms of brightest pure yellow, no hint of orange. Long in bloom. Strictly a nonspreader. Recommended. 2.00

12.00

DIANTHUS

Doz. 100

*Plumarius Little Gem. A delightful new addition to the Dianthus family, of our own origination, being only 3 inches in height, and having deep rose pink flowers with maroon centers, which are 1½ inches in diameter, and bloom from May until killed by a heavy frost, it will

DIANTHUS PLUMARIUS LITTLE GEM (Photographed in one-quart berry box)

stand the dry weather very well and in the dry summer of 1939, there was not a day that there was not a flower in bloom, and the succeeding wet weather seemed just as well to its liking as long as it does not get its feet wet. The flowers, which come about three to a spike, are just protuding above the foliage. Excellent for edging and the rock garden. 3.00

20.00

| DIANTHUS | Doz. | 100 |
|--|------|-------|
| *Rose Cushion. Dense Cushion of ever- green bluish foliage, with rose colored flowers in May | 1.50 | 10.00 |
| *Superbus White Lace. Snowy white flowers of large size, excessively fringed to exquisite airy filigree. Rarely, the flowers will bear a streak or patch of deep pink, other flowers on the same plant being pure white. Compared with the last, the plants are more compactly branching, and perhaps even more floriferous. | | 12.00 |
| DIGITALIS | | |
| †Orientalis. Blossoms of silvery down, on cream, all laid about with an even net- ting of chestnut brown. The flowers are carried at near a right angle with the | | |
| stem, and each has a long extended lower lobe, sort of a porch or balcony to the blossom. An odd, and attractive species, from borders of Kurdistan. An | | |
| enduring perennial | 2.00 | 12.00 |
| DRACOCEPHALUM | | |
| *Nutans. A lang-attractive alpine of easy handling. Little "snap-dragons" of intense blue, packed in dense spikes. After the flowers have fallen, the brown-purple bacts continue the decorative showing. | | 12.00 |
| FUCHSIA | | |
| *Magellanica. This interesting shrub is in bloom all summer long until stopped by frost, the ruby-red pendent flowers are produced by the hundreds in full sun or light shade, a most interesting plant for rock garden or border, where it fits perfectly, they are specially adapted for shady places. We advise protection north of New York City | | 10.00 |
| GAILLARDIA | | |
| the total description of the second of the s | | |
| tically all floral work | | 12.00 |
| GALIUM | | |
| †Verum. Golden Baby Breath. Mats of exquisite emerald laciness; then sprays | | |
| of airy golden flowerets | | 12.00 |

SHOREWAY NURSERY 6 doz. 100 HEATHERS Having been requested continually for these useful plants, we have obtained a fair sized collection of these plants which will grow good in well drained spots in either rock garden or border. **CALUNA** Vulgaris alba. Vulgaris alba minus campacta. Vulgaris alba Searlei. Vulgaris alba Villosa. Vulgaris argentea. Vulgaris aurea. Vulgaris cuprea. Vulgaris Hammondi Vulgaris Humilis. Vulgaris monstrosa. Vulgaris rigidis. Vulgaris rosea. Vulgaris tenella. All Heathers are 2.50 15.00 HELIOPSIS †Incomparabilis. A greatly improved form which should do much to increase the popularity of this easily grown plant. During July and August, when cut-flower material is not plentiful, it produces large, almost double flowers of rich golden color, on strong branching stems. 2.50 15.00 HOUSTONIA *Coerulea. Innocence or Bluet. Exquisite little blue stars, myraids of them on slender airy stems above close foliage. Delightful always, never more so than when it reflects April sky, spread until colony has merged with colony to form great azure drifts. No Gentian-set slope of Switzerland or the Himalayas has more endearing charm than our own Bluet-sheeted meadows and hillsides... 2.00 12.00 HYPERICUM *Lanuginosum. Delightful in flower and in frosted foliage effects. For a full three months there are blossoms of pure butter-yellow, fluffily tasselled, these carried in an enormous profusion, no Hypericum more floriferous. Makes good colonies with time. From coast hills of Syria, but of full hardi-

IRIS

ness.

†Dichotoma. August or Vesper Iris. Though quite out of resemblance to all other Irises, it is none the less desirable. All through August the plants are, each afternoon, great bouquets of bloom. The blossoms are carried in tall sprays, slenderly branching and re-

..... 2.00 12.00

| IRIS (continued) | Doz. | 100 |
|---|------|----------------|
| branching. Coloring is highly variable, usually a cool translucent lavender with mahogany markings that may be buff-lemon, orange, copper, brown or tyrian. | 1.50 | 10.00 |
| †Pycnostachya Gigantica. This latest form of Liatris Pycnostachya is the best yet of all Liatris known. Its flower spikes reach to a height of 7 to 8 feet, and when in full bloom shows 30 to 36 inches of stem in bloom at one time. Evcellent for border and cutting. August - September. One year plants | 2.50 | 25.00 15.00 |
| PAPAVER Gold of Ophir. A Poppy of medium height, about 24 to 28 inches, coming to perfection when 2 year old or more. The flowers are golden orange which develop into the nearest yellow of any Oriental Poppy. This tone of golden orange becomes more pronounced as the plant grows older. A unique Oriental Poppy. Henry Cayeaux. Early, deep old rose shading to burgundy. Best grown in partial shade. | 2.50 | |
| †Scabiosaefolia. Golden Valerian. A highly meritorious hardy perennial for the border. High-held sprays of little golden yellow "Valerian" flowers. It cuts and lasts well | | 12.00 |
| *Atriplicifolia. Silver is here dominant, a silver that at times may be almost a snowy downiness, or again may hint of olive shadings, but an enveloping felted silveriness always. The flowers, and they show in midget multitudes, would be a bright blue-lavender were it not for a silvery haziness. A very lovely species. Afghanistan | | 15.00 |
| PHLOX decusta Marge. A beautiful new Phlox with large heads of white flowers with small lilac rose eye. Must be seen to be appreciated | | 12.00 |

| PHLOX (continued) | doz. | 100 |
|---|------|-------|
| *Camlaensus. This is reported to be a cross between Phlox Subulata Rosea and Phlox Amoena and is quite the lovliest dwarf phlox in existence today. The flowers are large and completely cover the plant, which grows about 8" high, in bloom in May and June. Lovely with tulips and a gem in the rock garden or as an edging plant for walks or beds. | 2.50 | 15.00 |
| *subulata nivalis sylvestris. A strong compact growing type, producing rosy red flowers of huge size in abundance. It is the most brilliant Subulata Phlox in existence to date. We are sure this plant will be very popular as soon as it is better known. We recommend that you give it a fair trial this year | | 12.00 |
| SPIREA | | |
| Venusta. (Lobata). Commonly called Martha Washington Plume, also King's Plume. A Noble plant growing about four feet high, producing in July and August handsome rosy carmine flowers which are delightfully fragrant. A dedesirable plant for the border or along | | |
| a small brook. | 2.50 | 15.00 |
| TALINIUM | | |
| *Calycinum (Cherry Sunbright). A hardy perennial succulent, with root tubers, which when in bloom are a compendium of delight. Try it in any hot dry place, full sun always, for an all-summer display of color brilliance. The blossoms, of luminous cherry-rose, are in airy sprays on stems so fine as to be near-invisible. Attractive foliage, succulent and brittle. | | 8.00 |
| VERONICA | | |
| †Blue Spires. Far superior to the well known Spicata. Growing two feet high, its lovely deep blue spikes show up well in the hardy border. The foliage is clean and plant is of bushy, upright habit and flowers throughout the early summer. A fine new introduction of real merit, and a plant which does withstand hot and dry weather without suffering. Altogether a very worth- | | |
| while border plant | 1.50 | 10.00 |
| *incana rosea. Silvery foliage and showy Pink flowers during July and August, | | |
| 1 ft | 2.50 | 15.00 |
| *Spicata alba nana. A most pleasing form of Veronica spicata alba, growing only 8" high. Its pure white flowers are nicely offset by its dark green foliage. Good for edging and the rock garden. | | |
| June - July. | 2.00 | 12.00 |

| VERONICA (continued) | doz. | 100 |
|---|--------------|-------|
| *trehane. One of the choicest Veronicas. The foliage is golden yellow, very strik- | | |
| ing. Blue flowers. 6 inches. May-June | 1.25 | 8.00 |
| VIOLA | 2000 | 0.00 |
| *Sylvestris Rosea. Months of bloom, | | |
| jewel-like blossom-brilliants of gleam- ing rose. Particularly good, both in | | |
| flower and in foliage | 2.00 | 12.00 |
| | <i>A.</i> 00 | 12.00 |
| Other Perennials | 70 | 100 |
| | Doz. | 100 |
| *Clavenae. Silvery foliage, white flowers 8 inches, April-May | | 10.00 |
| †The Pearl. Sprays of small double white | | |
| flowers, 2 ft., June-September | | 6.00 |
| *tomentosa. Neat cushions of bright | | |
| green foliage and heads of yellow flowers. 8 inches. May-June | | 6.00 |
| ACONITUM (Monkshood) | | |
| Fisheri. 2 ft. Dark blue. SeptOct | 1.25 | 8.00 |
| AETHIONENA. Lebanon Candituft. | | |
| *Corridifolium. Bluish green foliage, | | |
| pink flowers, 1 ft. May-June | | 12.00 |
| AJUGA | | |
| *reptans. A blue flowered trailer for the | | |
| rock garden. 6 inches. April-May | | 6.00 |
| *reptans purpurea. Same as the above only deep colored brown foliage | | 6.00 |
| | 1.00 | 0.00 |
| ALYSSUM | | |
| *argenteum. Large, flat trusses of golden yellow flowers. 1 ft. May-June | | 6.00 |
| *montanum A first rate rock plant. | | 0.0 |
| Each of its prostrate stems terminates | | |
| in a truss of rich yellow flowers. 4 | | 8.00 |
| inches. May-June | | 8.00 |
| One of the most popular of spring flow- | | |
| ering plants. Masses of yellow flowers. | | |
| 9 inches. April-May | | 6.00 |
| *saxatile citrinum. A sulphur colored variety of the above | | 10.0 |
| ANCHUSA | | |
| *myosotidiflora. Masses of bright blue, | | |
| forget-me-not flowers. 1 ft. April-May | | 10.0 |
| ANEMONE | | |
| *Pulsatilla. Large, bluish-purple cup | | |
| shaped flowers. 1 ft. April-May | 1.25 | 8.0 |
| *alba. A white variety of the above | | 10.0 |
| Distinct and rare | 1.50 | 10.0 |
| AOIIII ECIA (Columbina) | | |
| AQUILEGIA (Columbine) chrysantha Soft vollow flowers 3 ft | | |
| AQUILEGIA (Columbine) chrysantha. Soft yellow flowers. 3 ft May - June | | 8.0 |
| chrysantha. Soft yellow flowers. 3 ft | 1.20 | 8.0 |

| AQUILEGIA (continued) | doz. | 100 |
|---|-------|--------------|
| Crimson Star. This is an entirely new | | |
| Aquilegia. It is by far the most strik- | | |
| ing crimson with white corolla. Because of its bright color, we believe that our | | |
| customers will find this variety of great | | |
| value either in border plantings or for | | |
| cut flower use. | 1.50 | 10.00 |
| Mrs. Scott Elliott's Strain. This is prob- | | |
| ably the best strain of long spurred hybrids. Wide range of colors. 2-3 ft. | | |
| May - June | 1.25 | 8.00 |
| RABIS (Rock Cress) | | |
| *Alpina. One of the earliest Spring flow- | | |
| ering plants. Very suitable for the | | |
| rockery or border, with its masses of | 1.00 | <i>e</i> 00 |
| pure white flowers. 1 ft. April-May *Alpina, fl. pl. A double form of the | 1.00 | 6.00 |

| *tricosantha. A low growing rock plant | | |
| bearing globular heads of pale blue flowers arising from tufts of shing | | |
| green foliage. 6 inches. May-June | | 10.00 |

| GYPSOPHILA—BABY'S BREATH | Doz. | 100 |
|--|------|----------------|
| †Bristol Fairy. 3 ft. This variety when first introduced was quite a sensational novelty and has, without doubt, proved to be the most valuable hardy garden plant in recent years. Has great panicles of pue white double flowers so indispensable for cutting. It also possesses the advantage of flowering more or less continuously throughout the entire summer months. | 9.70 | 15.00 |
| Strong field grown plants | | 15.00 10.00 |
| *repens. Dwarf trailer; small white flowers. May-July | 1.25 | 8.00 |
| HELENIUM | | |
| Strong-growing plants, valuable for producing late summer and fall effects in woodland or herbaceous border. Also useful as a cut-flower. | | |
| †Bigelowi. Yellow, good for cutting †Golden Youth. Bright yellow flowers, | 1.25 | 8.00 |
| with purplish black disk | 1.25 | 8.00 |
| bronzy red ray florets shading to orange at the tips. Blooms in late summer | 1.50 | 10.00 |
| †Riverton Beauty. 4 ft. Clear yellow flowers with black centers. August- | 105 | 0.00 |
| September†Riverton Gem. 4 ft. Rich mahogany- | | 8.00 |
| red flowers. August-September †superbum. 4 ft. Yellow. August- September | | 8.00 |
| HELIANTHEMUM | | |
| (Rock Rose). Free flowering, dwarf, evergreen shrubs which make a brilliant show on the rock garden during June. The following named varieties are much superior to mixed seedlings: | | |
| *Fireball. Brilliant scarlet. 9 inches. *macranthum. Large creamy white. 6 | | |
| inches. *Mrs. Earle. Double scarlet flowers. 6 | | |
| inches. *praecox. Large, soft yellow flowers. Sil- | | |
| *rhodanthe carneum. Clear pink flowers. Silvery foliage. 9 inches. | | |
| *Rose Queen. Pink flowers. 1 ft. All Helianthemus are | 1.50 | 10.00 |
| HELIOPSIS | | |
| †Pitcheriana. Golden yellow flowers all summer. 3 ft | 1.00 | 6.00 |
| †Scabra Zinniaeflora. Semi double orange yellow flowers. 2½ ft. July-Aug | 1.25 | 8.00 |

| HEUCHERA—Coralbells | Doz. | 100 |
|--|------|-------|
| *†Sanguinea. Excellent rock or border plant growing about 12 to 18 in. high. Blooms profusely, having flowers of bright crimson in June to Sept. Ideal for cutting. Likes a well drained, fairly | | |
| rich soil in sun or part shade *†Sanguinea alba. A white form of the | 1.00 | 6.00 |
| above*†Perry's White. Pure white flowers which go well with the red and pink varieties, | | 10.00 |
| flowering from June to September *†Pluie de Feu. Graceful spikes of dazzling crimson flowers. 1½ ft. May- | | 10.00 |
| June*†Rosamunde. Coral-pink flowers. 2 ft. | | |
| HIERACEUM | | |
| villosum. A good border plant with hairy, silver grey leaves and yellow flowers, borne on 15 inch stems. May-June. Unlike its name-sake, H. Aurantiacum, it is a very slow grower, and can be left several years in the same place without transplanting | 1.25 | 8.00 |
| HOLLYHOCK | | |
| Double Crimson. Double Deep Rose. Maroon. Newport Pink. Double White. Double Yellow. | | |
| All Hollyhocks are | 1.00 | 6.00 |
| *Fragile. A compact trailing rock plant | | |
| with yellow flowers. 5 in. May-June. | | 8.00 |
| *Olympicum. A trailing rock plant having gray foliage and bearing very large, bright yellow flowers. 6 in. June-July. | 1 95 | 8.00 |
| IBERIS—Candytuft | 1.60 | 0.00 |
| *Gibraltarica. A lovely rock plant with dark evergreen foliage on stems of maroon. During late May and June it is covered with beautiful lilac colored flowers. Will grow in ordinary good soil. Attains a height of 8 to 10 inches | | |
| when in bloom | 1.25 | 8.00 |
| *Little Gem. 6 in. Very dwarf with a neat compact habit of growth. Pure | | |
| white flowers in May and June *Sempervirens. 1 ft. Rich dark ever- green foliage with masses of white | 1.50 | 10.00 |
| flowers in Spring | 1.25 | 8.00 |
| white flowers borne in great masses during May and June | | 10.00 |

100 INCARVILLEA Doz. Delavayi. A somewhat rare plant of exceptional merit. The flowers are tubular in shape, like those of Bignonia grandiflora; they are dainty pink in color, the throat being streaked with purple. They are borne in clusters of six to twelve flowers on stout erect stems. July. Strong flowering roots... 1.50 10.00 INULA-Feabane *Glandulosa. 2 ft. little known plant of rare beauty. The flowers are golden yellow and fully five inches across, with long, thread-like gray petals. June-July. 1.25 8.00 GERMAN IRISES (Iris germanica) Their beauty outrivals that of the orchid in their delicacy of structure and wide range of colors. No garden is complete without them, and a very delightful garden can be made with nothing but them, as they are especially adapted for flower-borders, shrubberies, woodland walks, and for surrounding lakes and ponds, if planted well above the waterlevel. †Albert Victor. | IMPERIAL JAPANESE IRIS (Iris Kaempf | eri) | |
|---|------|--------------|
| These noble Irises are the most beautiful of the species and are becoming more popular each season. They begin | | |
| blooming about the middle of June and continue for about five to six weeks. While they succeed in almost any soil | | |
| and under any condition, they delight in a rich deep moist position. †Azure. Double Blue with yellow base. | | • |
| †Betty Holmes. Large white, Orange Center. | | |
| †Catharine Parry. Blue overlaidrosey red high tufts in center. | | |
| †Eleanor Parry. Double Claret red with white and blue flush. | | |
| †Fascination. Double. Soft lavender. †Mount Hood. Double rich royal purple with yellow center. | | • |
| †Purple & Gold. Double, purple and gold streaked. | | |
| †Pyramid. Double, dark violet with bright yellow blotch. | | |
| †Red Ridinghood. Single red. All Japanese Iris are | 1.50 | 10.00 |
| †Japanese Iris Mixed. Splendid mixture of the above. | 1.25 | 8.00 |
| VARIOUS IRISES | | |
| *Cristata. 4 in. dwarf, fairy-like plant with soft blue, orange-striped flowers. Easily grown in a rather moist, par- | | |
| tially shaded position. May *Pumila cyanea. 9 in. Violet-purple. | 1.50 | 10.00 |
| May*pumila lutea. A yellow form of the | 1.00 | 6.00 |
| above*pumila the Bride. A white form | | 8.00 8.00 |
| †Sibirica (Siberian Iris). 2 to 3 ft. A variety distinguished by its tall, grass-like foliage and numerous violet-colored flowers that are borne on slender stems. | | |
| May and June | 1.00 | 6.00 |
| merit. Flowers snow-white | 1.00 | 6.00 |
| LAVANDULA—Lavender | | |
| *Vera. A delightful, old-fashioned perennial having fragrant blue flowers in July and August. Likes a rather dry, medium soil and a sunny position. A compact bushy plant with lovely greygreen fragrant leaves. Height, 13 in. | | |
| Suitable for border or rock LIATRIS (Blazing Star) | 1.25 | 8.00 |
| †Pycnostachya. Long straight stalks 4 ft. | | |
| high with spikes 1 to 3 ft. long of rosy- purple flowers. The Liatris, unlike other flowers, commences to bloom at the top | | |
| of spike, and blooms downward. Good for cutting. July-August | | 6.00 |

| LIATRIS (continued) | Doz. | 100 |
|---|-------|-------|
| †Pycnostachya Late. Similar to the above | | |
| but blooms a month later. August- | 4.05 | 0.00 |
| September | 1.25 | 8.00 |
| †Scariosa Superba. Greatly improved type very showy. Large, well-spaced tassel- | | |
| blossoms of rosy purple on long spikes. | | |
| The best and most desired Liatris in | | |
| the cutflower market. 5 ft. Sept | 1.00 | 6.00 |
| †September Glory. This late flowering | | |
| type was selected from among a large | | |
| number of fine seedlings because of its | | |
| outstanding beauty. It is the showiest form of all the late varieties. The | | |
| purple flowers are produced in extra | | |
| long spikes during late August and | | |
| September. A first-class acquisition for | | |
| the border and for cutting | 2.00 | 12.00 |
| †Spicata. Reddish purple. June-July | 1.00 | 6.00 |
| LINUM—Flax | | |
| Flavum. An attractive and profusely | | |
| blooming perennial suitable for border | | |
| or rock garden. Grows 1 foot high | | |
| and has lemon yellow flowers from June to August. Grows in sandy or ordinary | | |
| light, well drained soil and prefers | | |
| sun | 1.25 | 8.00 |
| *Flavum manum compactum. A dwarf | | 0.00 |
| form of the above | 1.50 | 10.00 |
| perenne. A beautiful border plant produc- | | |
| ing a profusion of pale blue flowers on | | |
| upright stems 2 ft. high. A new crop of | | |
| blooms every day. A very graceful and desirable plant. | 1 25 | 8.00 |
| perenne album. A white form | | |
| LOBELIA—Indian Paintbrush | X.140 | 0.00 |
| Cardinals (Cardinal Flower). One of the | | |
| most attractive of border plants. Also | | |
| ideal for waterside. It requires a moist | | |
| position in sun or part shade, to do | | |
| well. Has rich, fiery cardinal flowers. | | |
| Often producing 4 to 6 spikes, 24 to 30 inches high | 1 25 | 8.00 |
| MERTENSIA—Blue Bells | 1.20 | 0.00 |
| Virginica. An interesting native plant. | | |
| 1½ ft. Pinkish buds opening to lovely | | |
| clear blue flowers. May-June | 1.25 | 8.00 |
| MYOSOTIS—Forget-Me-Not | | |
| Palustris semperflorens. Noted for its | | |
| magnificent blue-colored flowers. 9 in. Light blue flowers during June | 1.00 | 6.00 |
| NEPETA—Catmint | 1.00 | 0.00 |
| *Mussini. A plant especially good for the | | |
| rock garden. Of dwarf, compact nature, | | |
| producing masses of blooms of lavender | | |
| color all spring and intermittently dur- | | |
| ing the summer. One of the most popu- | | |
| lar of rock plants or edging plants. | | |
| Does well in ordinary soil that is well drained. Prefers sunny position. Height | | |
| 1 foot | 1.25 | 8.00 |
| | | 5,00 |

| OENOTHERA—Evening Primrose | Doz. | 100 |
|--|------|-------|
| *Missouriensis. A low growing plant used | | |
| chiefly for the rock garden and border. | | |
| Blooms abundantly from June until | | |
| August. Require a well drained, medium | | |
| sandy soil and a sunny position. Has | | |
| beautiful large yellow flowers. Height, | | |
| 6 inches | | 8.00 |
| | 2000 | 0,00 |
| PAPAVER ORIENTALE—Oriental Poppy | | |
| Orientalis. The plant that gives that gorgeous display of large cup-shaped, | | |
| bright orange scarlet flowers in May | | |
| and June. They do well in any well | | |
| drained soil in sunny position | | 8.00 |
| Beauty of Livermere. (Deep Cherry | | 0.00 |
| Red) | | 10.00 |
| May Sadler. (Salmon Pink) | | 10.00 |
| Mrs. Perry. (Apricot Pink) | | 10.00 |
| Perry's White. (White) | | 10.00 |
